Possible UFO sighted on December 12, 2007: Stan Gordon reports that on December 12, 2007 multiple witnesses in Lancaster and Lebanon Counties observed an unusual object in the sky around 5:00 PM. Stan asked if I could follow up on the Lancaster County report. When I talked with the witness she admitted she was a previous skeptic but now doesn't know what to believe. The Witness was taking her son to karate class and driving on RT 743 towards E-Town (Elizabethtown). The time was about 5:00 PM when witness and son noticed a large object in the sky. When asked how high in the sky the object was she estimates it was about as high as a water tower. She described the object as being boomerang shaped and as large as a jet with six or eight white lights. Witness is not sure if the white lights were the shape of the object or individual lights flying in formation. The witness is familiar with different type aircraft as she lives on a flight path and is witness to many military and civilian type aircraft that regularly land at Harrisburg International Airport. Both she and her son were baffled as to what they were seeing; it was something they have never seen before. Her sighting of the object lasted about five to seven seconds as she was trying to drive but her son continued to watch the object for about five minutes. Both observed the white lights on the object go out one at a time in quick succession. When the last light went out the object was no longer in sight and then would reappear with all the lights on and again each light would go out until the last one and the object would not be seen. Witnesses did not hear any sound and said the object appeared to be hovering since it appeared to be in slow motion. Witness feels there should be others in the E-town area that had seen the object since it was above the downtown area. Witness did do an internet search and found that a Harrisburg area witness observed an object in the sky for about ten minutes around the same time and described six lights. Both Stan and I are still following up on this report. If anyone has any information please contact me at rfisher@paranormalpa.com or Stan Gordon at pauf@westol.com.

Tribute to Sarah Estep. Our condolences to the family and friends of EVP researcher Sarah Estep. Sarah was one of the early pioneers of EVP and started the American Association of EVP. She opened the door for many EVP researchers, she will be missed. Colleague Rosemary Ellen Guiley was a good friend of Sarah and wrote a tribute to her which can be seen at www.visionaryliving.com/blogger/index.php

Ultrasound and EVP: I have been working with an ultrasound device at our GhostQuest project and have recorded several EVP. One voice sounds like it is saying (I heard a sound) followed by another voice saying (what sound) the following week a voice says (I heard a heartbeat) interesting that in each recording they talk of hearing something and

again we can't be certain of where the voices are coming from but our research will continue.

New book: We are anxiously awaiting the release of Craig Telehsa's new book "A Practical Technology Guide to the Paranormal" a must book for any paranormal investigator.

UFO Sightings: I am looking for any information on Pennsylvania UFO sightings, abductions, or other UFO phenomena that may have appeared in any Pennsylvania newspaper any year, or personal experiences you or someone you know may have had for possible inclusion in an upcoming book. Please contact me at rfisher@paranormalpa.com
